    temperature for the date from source web with link no extrat text or markdown Give
    accurately with Web search no Hallucination\". They want the temperature for May
    20, 2026, presumably from some source. The user explicitly asks to not
    hallucinate. We should perform a web search to find the forecast or historical
    weather. But for future date (Mav 20, 2026) this is beyond typical forecast. So no

        "content": "***Introduction à l'ingénierie des invites**\n\nL'ingénierie des invites est un domaine passionnant qui nécessite une combinaison de compétences techniques et de connaissances en psychologie et en design. Voici quelques étapes pour apprendre l'ingénierie des invites :\n\n### 1. **Comprendre les bases de la cognition et de la psychologie**\n\n* Étudiez la psychologie cognitive et les principes de la perception humaine pour comprendre comment les gens interagissent avec les systèmes et les interfaces.\n* Apprenez à identifier les facteurs qui influencent la prise de décision et le comportement des utilisateurs.\n\n### 2. **Apprendre les principes de design d'interface utilisateur**\n\n* Étudiez les principes de design d'interface utilisateur (UI) et d'expérience utilisateur (UX) pour comprendre comment créer des interfaces efficaces et agréables.\n* Apprenez à utiliser des outils de design tels que Sketch, Figma ou Adobe XD.\n\n### 3. **Familiarisez-vous avec les technologies d'invite**\n\n* Étudiez les différentes technologies d'invite, telles que les chatbots, les assistants vocaux, les agents de conversation et les systèmes de recommandation.\n* Apprenez à utiliser des plateformes de développement d'invite telles que Dialogflow,
```

Microsoft Bot Framework ou Rasa.\n\n### 4. **Développez vos compétences en programmation**\n\n* Apprenez à programmer dans des langages tels que Python, JavaScript ou Java pour créer des invites personnalisées.\n* Utilisez des bibliothèques et des frameworks tels que TensorFlow, PyTorch ou NLTK pour développer des modèles de langage naturel.\n\n### 5. **Pratiquez et expérimentez**\n\n* Créez des invites simples pour comprendre les principes de base.\n* Expérimentez avec des invites plus complexes pour développer vos compétences.\n* Participez à des projets open source ou créez vos propres projets pour développer votre portfolio.\n\n### 6. **Rejoignez des communautés et suivez les tendances**\n\n* Rejoignez des communautés en ligne telles que les forums Reddit, les groupes Facebook ou les meetups pour discuter avec d'autres spécialistes de l'ingénierie des invites.\n* Suivez les tendances et les actualités dans le domaine pour rester à jour sur les dernières technologies et les meilleures pratiques.\n\n**Conclusion**\n\nL'apprentissage de l'ingénierie des invites nécessite une combinaison de compétences techniques, de connaissances en psychologie et en design, ainsi que de pratique et d'expérimentation. En suivant ces étapes, vous pourrez développer vos compétences et devenir un spécialiste de l'ingénierie des invites. N'oubliez pas de rester à jour sur les dernières technologies et les meilleures pratiques pour continuer à améliorer vos compétences."
